ORIGIN OF THE INDIAN RACES.

Historians of this country and Europe have differed in their views of the origin of the North American Indians, although a majority favor a Mongolian origin. This theory is revived by the Japanese Consul at San Francisco, who thinks that the Pacific tribes descended from the castaways of China, Japan, and possibly other Oriental lands. He says that since A. D. 1630, the Japanese navigation laws have prohibited ship-builders from making sea-going vessels, because all, or nearly all, wrecks were borne into the Japanese current, or the "Kuro suro," as called in the Orient. This current, or gulf, stream, takes all wrecks from the Chinese and Japanese seas to the Pacific ocean; and within three-quarters of a century over forty wrecked Japanese sailors have been picked up off the coasts of the Sandwich Islands. Hence, it is inferred that our aborigines descended from castaways of "the far Orient." A plausible theory.

GEN. BEAUREGARD has recently published a letter in which he said: "After the battle of the first Manassas (Bull Run), when it was reported that the Federal Government refused to recognize Confederate prisoners as 'prisoners of war,' I advocated a 'war to the knife,'—neither asking nor granting quarter." This confession of Beauregard will not add much to his personal or military reputation. An advocate for fighting "under the black flag" should have been born three or four centuries ago. Then he might have been excused on the ground of common usage in barbaric war; but not at this late period of civilization.

BUNKER HILL CENTENNIAL.—If Boston's intentions are carried out, the one hundredth anniversary of the battle of Bunker Hill will be a grand affair. It is proposed to call out the entire military of the State; to use two or three naval vessels in a sham fight with the troops (in imitation of the real battle), and to have other attractive civic and military demonstrations. By all means, let us have a "big day" on the 17th of next June. None of us will care about living to see another Bunker Hill centennial. "Bang! bang!"

The Connecticut Legislature is now in session at Hartford. Among important matters that will come before it will be several proposed Constitutional amendments (which were continued over from last year) and which will be submitted to the people—a two-thirds vote being required for indorsement. The leading amendments are these: To prohibit towns and cities from subscribing to railroad and other corporate stock; to change the election from April to November; to provide for biennial elections of the Legislature; to reconstruct the Senatorial districts; and fix the tenure of judges, etc.

THE HOOSAC TUNNEL.—Massachusetts expended over twelve millions, it is said, in building the great tunnel through Hoosac mountain; and now the Governor of that State informs the Legislature that it will require a million and a quarter more to put the tunnel in a condition to be utilized. An expensive railway experiment, and worse yet, nobody knows what to do with it. And still as a hole in the ground it's a big thing.

For fine Spring and Summer shawls go to J. Prescott's.

THE DEATH OF THE POPE.
For a number of years past the reading public have been told, at intervals, of the alarming sickness of the Pope. From their constant repetition and the non-fulfillment of the gloomy forebodings that accompanied them, the public have become skeptical. The story has become old. It is said, again and again, "the Pope has been often on the point of death and has as often recovered."

And yet with the progress of this unbelief in the public mind, as to the necessarily fatal consequences of any of the attacks to which His Holiness is subject, the probability of his death advances. He is more likely to die now, when the public have almost schooled themselves to think him immortal, than he was ten years ago, when the announcement of his illness would have led to the anticipation of his death. The very collocation, 1792-1875, calls up the shadow of many events. At the former date Louis XVI. still retained his head. France was a monarchy, ruled by the "patriot" ministry in which were Roland and Danton. France has been twice Republican, twice Imperial, twice Kingly since that time, and is now experimenting upon Republicanism for the third time. It has conquered and been conquered. And it is but a type. The world has been completely changed since Pope Pius IX. was born—while George Washington had yet ten months of his first Presidential term to serve out.

Pius IX. is, according to the usually received chronology, the two hundred and fifty-eighth Pope. He was proclaimed Pontifex Maximus after election by the College of Cardinals, June 16, 1846, in succession to Gregory XVI. "Non videbis annos Petri"—thou shalt see the years of Peter—is the tradition which clings to the Papal throne. Pius IX. has, however, seen the years of Peter, and if he lives until June 16, he will have served out a pontificate four years longer than the first Bishop of Rome. The legend must now be changed to "Thou shalt not see the years of Pius." During the twenty-nine years of his pontifical career, what changes have not His Holiness seen? At one time he saw a Republic in the streets of Rome. Again, he saw Italian unity slowly consolidating, until, as the result of the Franco-Prussian strife, Rome was given up to Victor Emmanuel. In a purely ecclesiastical point of view his pontificate has been very remarkable. In 1854 Pius defined the doctrine of the immaculate conception, which had been developing for centuries past. December 8, 1869 the Council of the Vatican convened at Rome the first ecumenical council in centuries. This council defined the dogma of Papal infallibility, a doctrine which has caused a great deal of discussion and opposition. Pius has lived to see the Church, though it has now a unity of doctrine and a perfection of discipline then undreamed of, in about as bad a state as when he was born. If he now dies—and the serious illness of a man eighty-four years of age forebodes probably fatal results—Pius will leave the Papal chair to his successor in a condition less worthy of the viceroy of God than it has been since the time of Constantine.

The President had an interview with some Indian chiefs Wednesday, who were supposed to be desirous of selling the Black Hills Reservation. One of them—Lone Horn—indulged in a war-talk to the President, who quietly got rid of him. Lone Horn had perhaps drunk some raw-water.

A WESTERN editor mourns over the resignation of Mr. Spinner, late superintendent of the paper-money department of the Treasury, and says: "We shall miss that bunch of eels engraved in the corner of our greenbacks."

TELEGRAPHIC NEWS ITEMS.
A dispatch from Berlin contradicts a statement of a London journal that Bismarck is afraid that the adoption by the French Assembly of the Army Cadets bill is dangerous to the peace of Europe. It is rumored that the small-pox is prevalent with the Carlist troops in Spain. The press of Spain is allowed to discuss a political question, except that relating to the monarchy during the electoral period.

Morris claims an election to the English Parliament from Tipperary, on the ground that John Mitchell was not a constitutional candidate.

The London Times finds something at last in the United States to praise. It is our policy in extinguishing our national debt, while it admits that England is not doing so.

The San Francisco Pacific Stock Board has been organized. It starts in with a capital of \$375,000, and its list of officers gives assurance of permanence.

The funeral obsequies of the late General John C. Breckinridge took place at Lexington, Kentucky, Wednesday, and were of an imposing character. The Governor and principal officials of the State were present, besides many other distinguished persons. It is said that no such outpouring of people has been witnessed in that State since the death of Henry Clay.

It is said that Cardinal McCloskey, of New York, is monopolizing the Catholic marrying people of that city—at least the more wealthy and aristocratic class of Catholics. To be married by a Cardinal in this country is something new, you know.

JACK NELSON—This horse will stand in Reno and vicinity during the present season. He belongs to the fastest breed of horses there is on the coast—many of his relatives having made their mile in 2:25. He himself, has made his two miles in 6 minutes, and is an untrained animal. He would make a fast trotter were it not for an accident that severed his gambal joint, whereby he was unfitted for the turf. He is 16 hands high, and weighs 1,225 pounds. He is a beautiful animal and we advise all to take a look at him and if he suits, you will do well to patronize him.

New Goods.—Mrs. McNeely has just received a new and beautiful lot of goods of the latest styles and colors, consisting of ready-made suits, dry goods, muslins, prints, white goods of all kinds, table linen, towels, napkins, black silk, hosiery, two-button gloves, gent's kid gloves, also handkerchiefs, ladies' handkerchiefs, parasols, Spring shawls, corsets, zephyrs. Millinery and fancy goods of all kinds.

RACES.—The programme of races to be run over the track of the Nevada State Agricultural, Mining and Mechanical Society, on July 2d, 3d and 5th, under the direction of the Trustees of said society, has been made public. The purses aggregate \$750. On Friday, the 2d, there will be a running race for \$200, free for all, mile heats, three in five. First horse gets \$150; second horse, \$50. On Saturday, the 3d, there will be a \$200 trotting race, free for all, mile heats, three in five, in harness. First horse, \$150; second horse, \$50. And also a running race of a single dash of half a mile, free for all, for \$50. On Monday, the 5th, there will be a trot for \$100, free for all in harness, that have never beaten three minutes; three in five. There will also be a running race for \$200, free for all; half mile heats, three in five. First horse, \$150; second horse, \$50. In all the above races three or more to enter; two or more to start. The trotting races will be governed by the rules of the National Trotting Association, and the running races by the rules of the California State Agricultural Society. Ten per cent. entrance will be charged in all of the above races.

FATAL ACCIDENT.—Jack Cairo, a brakeman on the Virginia and Truckee Railroad, was killed Wednesday evening at or near Brown's station. No one witnessed the accident, but it is supposed that in attempting to jump off to change a switch he caught his foot and fell under the wheels. The body was the most horribly mangled mass of flesh we ever saw. Both legs and one arm were cut off, and the upper portion of the head mashed into an undistinguishable mass of bones. Coroner Jones held an inquest yesterday forenoon, and the verdict of the Coroner's jury was "accidental death." The deceased was buried yesterday afternoon, and his remains were followed to their last resting place by many employees of the V. & T. R. R., and by other friends.

The largest and finest assortment of English and American prints at J. Prescott's.

close at hand. The Knights of Pythias open the season at the Bowers Mansion on June 19th. The Masons of Reno propose one at the same place on 24th of June, and the Pioneers have announced theirs for June 26th at the Bowers Mansion also. Great improvements have been made at the Mansion this Spring, in view of the picnic season, and this popular place of resort, will be able to afford more enjoyment than ever. The picnic season this year promises lots of fun for the people of Western Nevada.

K. of P.—Amity Lodge, No. 8, Knights of Pythias, meet at Odd Fellows Hall to-night at 8 o'clock. We are told that the members of this Lodge have just ordered their uniforms from the East, which are expected to arrive here in time for their grand picnic at the Bowers Mansion on the 19th of June. These uniforms will set the boys off to fine advantage.

OUR MARKETS.—These are well supplied, and no one has cause for complaint. Cherries, raspberries, strawberries, oranges, bananas, etc., are plentiful, and of vegetables we have an abundance of every kind.

Don't you go round in that shabby old suit of clothes any longer if you have a few dollars to buy a new one. You will be surprised if you call on us to learn how cheap you can buy a new suit of clothes.

BARNETT & BRO.*

RETURNED.—Mr. Jake Enkle has returned from San Francisco and deserves great credit in the manner in which he refitted his rooms. He has now the most elegant shop in the State. Jake is now running three chairs, being reinforced by Henry Morris and brother. Everybody knows Henry for he is the pioneer artist of the Coast, and between the three first-class artists, no one will have any occasion to wait long, or to go away dissatisfied. His excellent hair dressing, the I. X. L., will always be found on hand.

EL DORADO SALOON.—Contract Zick has just taken charge of this place, opposite Wintermantel's Hotel. Every attention paid to the patrons. Musical headquarters.

\$55 will buy you a Wilson sewing machine.—best and cheapest in America. Terms to suit any and all. Mrs. G. P. Barnett, Plaza St., sole agent for Reno. m13-1m

Every lady should go in time and secure some of those new style Spring dress goods at 25 cents per yard, at J. Prescott's.

The people have found out that our new Spring stock has arrived. To the ladies: We want to call your particular attention to our large stock of ladies dress goods for the Spring and Summer fashions at unusually low prices. Look all around, and then save from 20 to 25 per cent. by trading with us.

BARNETT & BRO.

NOTICE.—Mr. Nels. Greenman is no longer our authorized agent. Our patrons will govern themselves accordingly. St. Lee & Co. *

MILLINERY AND FANCY GOODS.—Mrs. Julia J. Prescott is pleased to inform her friends and customers that she has just returned from San Francisco after having selected the most complete, fashionable and elegant stock of Spring and Summer millinery and fancy goods for this market and which she has now displayed at her establishment at No. 20 Commercial Row. All are cordially invited to call and examine.

WILKESBARRE, Pennsylvania, has a gloomy future. It has been ascertained by careful computation, that in about eight million years from now, more or less, that doomed city will have sunk below the present surface of the earth. And yet the labor strike continues unabated, while no one is getting ready to leave town. Even real estate owners, who will, most of all, be losers, seem unconcerned.

An exchange says "no man ever became President who parted his hair in the middle." But such a man became the President's son-in-law—and he is more to be envied than the President himself.

INTERESTING TO THE LADIES OF KENO AND VACINITY.—The new dress-making establishment opened by the Misses Vance, at Plaza street, opposite the freight depot, will receive and make to order in the latest styles, all kinds of plain and fancy sewing.

DR. A. B. SPINNEY.

WELL KNOWN throughout the country as a Pathologist and Physiologist, whose successful treatment of certain physical disabilities and functional derangements, deservedly entitled him to the familiar recognition of the GREAT SPECIALIST, would respectfully inform the citizens of Virginia City, Nevada, and vicinity that he can be consulted at No. 188 South C street, Virginia, seven doors north of the French Drug Store, at his office, thus giving invalids an opportunity of ridding themselves, through his professional agency, of such constitutional annoyances and ailments as he claims to compass and to cure. Without entering into biographical details, it is sufficient to simply promulgate the fact that DR. SPINNEY'S earliest reputation may be traced back to his inauguration and conduct of the Montreal (Canada East) Medical Institute. The regime of the English Pharmacopoeia Colleges is gauged by an elevated standard. An extended experience and an assiduous study of the varied phases of disease enables him to guarantee assurance of success in the eradication of the multiform chronic affections, incident to both sexes, such as Nervous Debility, Exhausted Vitality, Youthful Excesses, Marriage Impediments, Chronic and General Afflictions.

TO THE LADIES.

DR. SPINNEY, while naturally impressed with the delicacy of the subject, feels no hesitancy in assuring them that, in conjunction with a competent knowledge of their various sufferings, such as Nervousness, Neuralgia, Spinal Weakness, Loss of Appetite, Lassitude, Protrusion Uteri, Retroversions or Displacement of the Womb, Vaginal Irregularities, Leucorrhoea, Dyspepsia, Indigestion, Constipation, and the many petty, irritating distractions that almost invariably have their origin in the uterine region, afford them immediate relief.

YOUNG MEN.

Who may be suffering from the effects of youthful follies or indiscretion, will do well to avail themselves of this, the greatest boon ever laid at the altar of suffering humanity. DR. SPINNEY will guarantee to forfeit five hundred dollars for every case of seminal weakness or private disease of any kind or character which he undertakes and fails to cure. He would, therefore, say to the unfortunate sufferer who may read this notice, that you are treading upon dangerous ground when you longer delay in seeking the proper remedy for your complaint. You may be in the first stage—remember you are approaching the last. If you are bordering upon the last and are suffering some or all of its evil effects, remember that if you obstinately persist in procrastination, the time must come when the most skillful physicians can render you no assistance; when the door of hope will be closed against you; when no angel of mercy can bring you relief. In no case has the Doctor failed of success. Then let not despair work itself upon your imagination, but avail yourself of the beneficial results of his treatment before your case is beyond the reach of medical skill, or before grim death hurries you to a premature grave.

COME AND BE HEALED.

It matters not what your trouble may be, come and let the Doctor examine your case. It will cost you nothing for consultation, so please call and satisfy yourself whether the Doctor understands your case. If he can cure you he will tell you so; if not, he will say so, for he will not undertake a cure unless he is confident of effecting a cure.

MIDDLE-AGED MEN.

There are many of the age of thirty to sixty who are troubled with too frequent evacuation of the bladder, often accompanied by a slight smarting or burning sensation, and a weakening of the system in a manner the patient cannot account for; on examining the urinary deposits aropy sediment will often be found, and sometimes small particles of albumen will appear, or the color will be of a thin and milky hue, again changing to a dark and torpid appearance. There are many men who die of this difficulty, ignorant of the cause, which is the second stage of seminal weakness. Dr. S. will guarantee a perfect cure in all such cases, and a healthy restoration of the genito-urinary organs.

N.B.—Only an interview required in a majority of cases; balance of treatment can be conducted at home without interruption of business. No cases treated without a personal interview and proper examination. Office hours—10 to 1, 2 to 4, and 7 to 8. Consultation Free. Examination and advice, \$5.
